USER-FRIENDLY DESIGN WITH QUALITY-OF-LIFE UPGRADES

Archicad 29 brings a new level of clarity, control, and customization to your architectural workflow. With smarter tools, sharper visuals, and smoother navigation, we developed this release to help you design precisely and collaborate effortlessly.

Whether you are refining details in elevation views, managing complex documentation, or presenting high-impact visuals, Archicad 29 intelligently adapts to the way you work. Streamline your workflows to free up time for creativity and deliver with confidence.

DESIGNED AROUND YOU

This release enhances the design environment with even more control, flexibility, and speed. It's packed with user-driven improvements that simplify tasks and reduce clicks. Archicad 29 also empowers architects to shape their workspace, refining their design process with advanced settings and customization. Design in a purpose-built workspace where you can bring bold ideas to life with seamless precision and flow.

Deliver stunning visuals with ease

Control the resolution of your 3D views on layouts for consistently sharp presentations, whether you are printing, exporting, or sharing online.

Model where it makes sense

Place openings directly in Section and Elevation views, so you can work in context and make more accurate design decisions without switching views.

Speed up everyday tasks

Rotate elements in 90-degree increments instantly with one click and intuitive shortcuts, and navigate your project faster with smarter, more responsive tools.

Stay focused, stay comfortable

Switch between Light and Dark Mode on macOS to match your environment and reduce eye strain during long design sessions.

Work the way you like

Customize your workspace with even more resizable dialogs, remembered open/closed panels in view settings, and enjoy cleaner modeling views so your tools adapt to you, not the other way around.

Communicate with greater clarity

Fine-tune your documentation with custom arrowheads, enhanced keynote legends, and more flexible schedule formatting, so your drawings convey a clear and professional message.

Design with more freedom

Enjoy enhanced control over kitchen cabinetry and slab visibility, allowing you to achieve greater flexibility in matching your design intent.

BUILT FOR MODERN COLLABORATION

Archicad 29 is ready for the future of connected design:

It brings architects and engineers closer together through smarter workflows, open standards, and seamless data exchange. Whether you're working across disciplines or borders, Archicad 29 delivers the tools to collaborate with confidence and precision.

Bimplus and Bluebeam Studio integration

Publish directly to Bimplus and streamline issue tracking with Bluebeam Studio, bridging the gap between design and documentation.

Expanded API capabilities

Automate tasks, build custom tools, and extend Archicad to fit your unique workflow.

Native IFC 4.3 support

Ensure smooth, standards-based collaboration with industry partners.

Native OBJ import

Easily bring external 3D assets into your project with OJB import support.

Filter and manage unused views

Quickly identify and clean up unused views to reduce clutter and avoid errors in shared deliverables.

Improved add-on manager

Gain better visibility and control over your add-ons making it easier to manage collaborative extensions and integrations.

Easily replace PDF pages

Update documentation without relinking entire files for projects that are always clean and current.

WHO IS Archicad 29 FOR?

Architects and designers
Create confidently using intuitive tools that support your creative flow and technical accuracy, from concept to construction documentation.

Project managers and coordinators
Streamline workflows while easily managing views and documentation. Ensure your team stays aligned across every phase of the project.
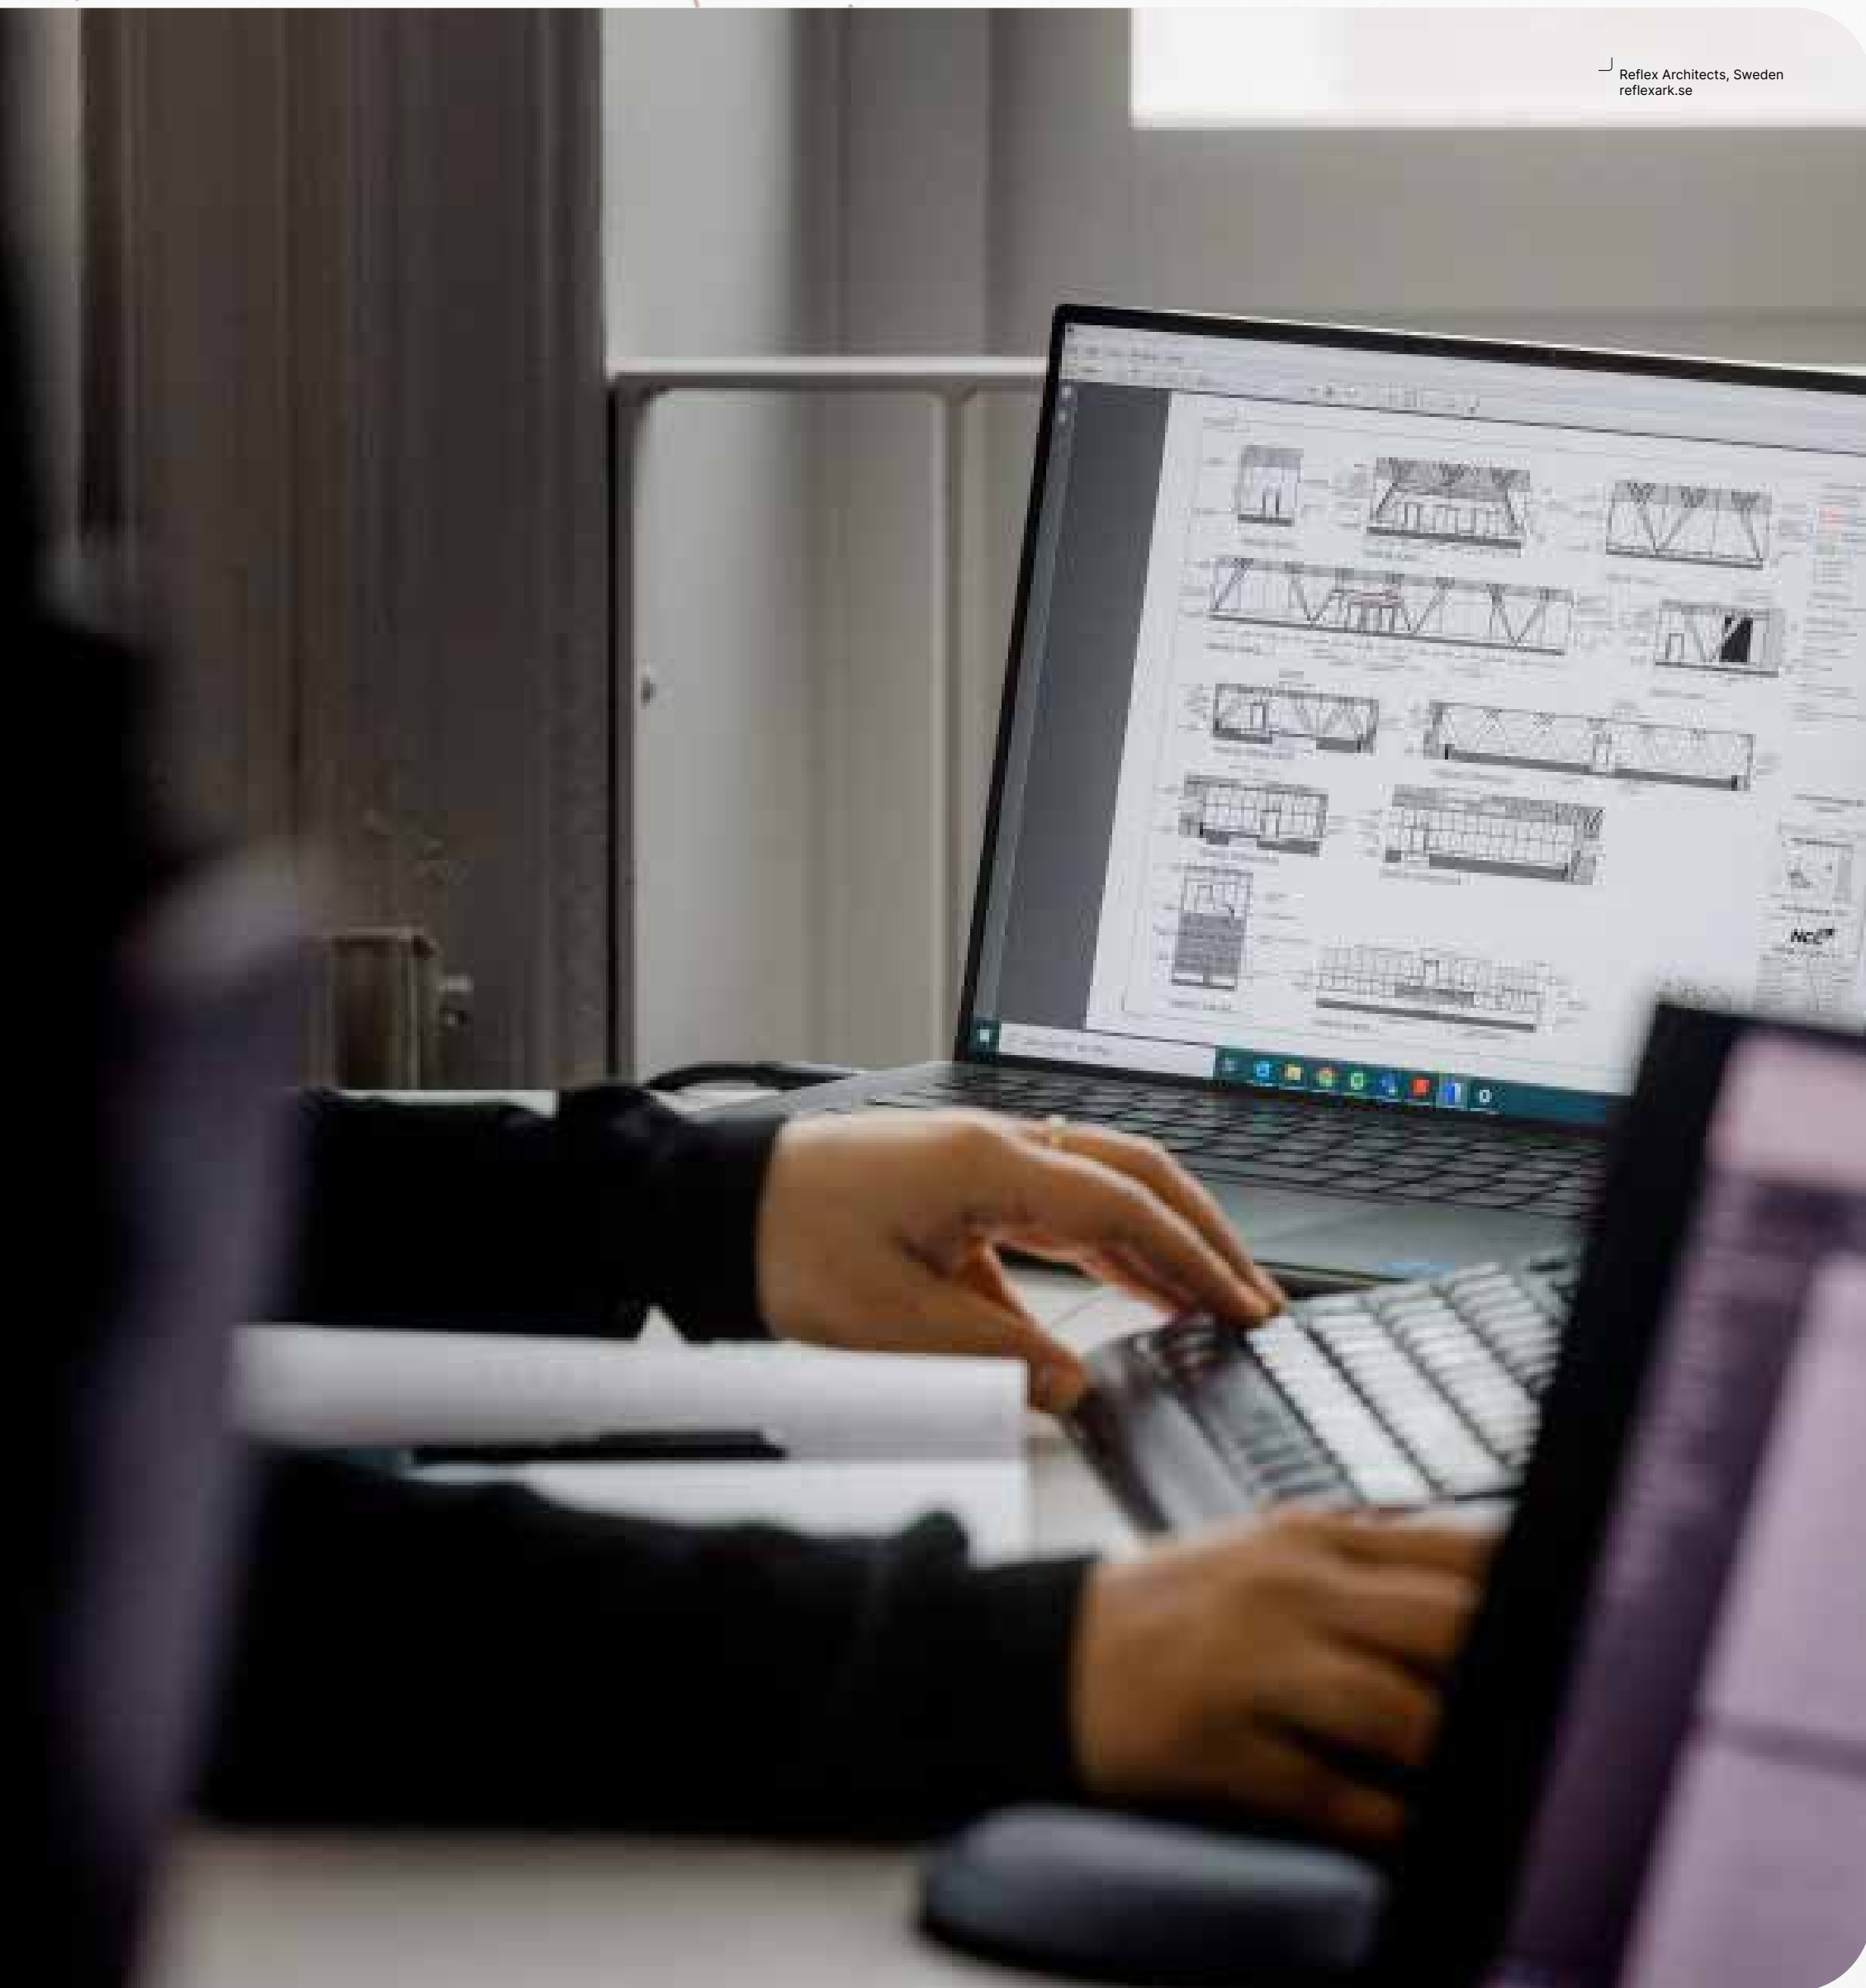

BIM managers and technologists
Leverage enhanced API capabilities, IFC 4.3 support, and improved add-on management to build smarter, more connected BIM environments

Collaborative teams
Whether you are working with consultants, clients, or contractors, Archicad 29 makes sharing, reviewing, and coordinating models seamless and efficient.
